Continuation of 11. does NOT place the application in condition for allowance because: Applicant has argued that Herigstad does not teach mapping is based on preexisting logical divisions of the web page unrelated to the keypad mapping. However, inequised teaches the mapping is based on divisions of the web page on figure 8, 160. The web page 160 is divided into nine portions. Herigstad also teaches multiple buttons (figure 8, nine buttons of the section 160) mapped to the same section (figure 8, the same section 160) by mapping individual of those buttons to separate subsections (nine subsections of the section 160).
